

HABIB

Passionate about technology, dedicated to continuous learning, and building practical programming skills to solve real-world problems.”

Professional summary

Aspiring Computer Science student with a strong interest in software development, problem-solving, and emerging technologies. Currently developing programming skills in Python and building a strong foundation in computer science. Eager to learn new technologies, work on practical projects, and grow into a skilled software engineer through continuous learning and hands-on experience.

Career objective

To develop my skills in computer science and software development, gain practical experience through real-world projects, and contribute to innovative technology solutions. I aim to continuously improve my programming, problem-solving, and teamwork skills while building a successful career in the technology industry.

Self analysis

Self-Analysis

I am a motivated, curious, and hardworking individual with a strong interest in computer science and technology. I enjoy learning new skills, solving problems, and exploring innovative ideas. I am committed to continuous self-improvement, adapting to new challenges, and developing my technical and communication skills. I value discipline, consistency, and a growth mindset, and I strive to turn my knowledge into practical results.
